Marietta,

The only recent action on avian toxicity from Scott has been where I provided input on a set of acute oral and subacute dietary toxicity study DERs; these were processed out in October. Other than that, I don't see anything else from Scott on birds.

I do have a honey bee toxicity of acetamiprid residues on foliage study review that he has requested my input on, but I only just received that.

Tom

EFED tracking team:

Attached is the Data Evaluation Records (DERs) and transmittal memo for an avian subacute dietary toxicity study with acetamiprid (PC Code 099050) submitted by the registrant Nisso Soda Co., Ltd..

An original and one signed copy of the review is in the "EFED documents to be logged out" drawer in S-12370. PDF and Word document versions are attached.

If you have any question please call me at 703-347-0230.
